Editorial

The very purpose of the Indian Journal of Agriculture and Allied Sciences (IJAAS) is to bring positive thinking to towards the Indian Agriculture, so that the can show their performance on a high level and thus contributes towards the development of the Agriculture as well as national GDP.

The New Vision for Agriculture initiative, led by the Consumer Industries Community of the World Economic Forum, works to develop a shared agenda for action and foster multi-stakeholder collaboration to achieve sustainable agricultural growth through market-based solutions. The initiative has defined a vision that highlights agriculture’s potential as a positive driver of food security, environmental sustainability and economic opportunity worldwide. Indian Journal of Agriculture and Allied Sciences (IJAAS) believes that achieving this vision will require the leadership and capacity of all stakeholders—government, business, civil society, academia, farmers and consumers.

The very purpose of the Indian Journal of Agriculture and Allied Sciences (IJAAS) is to bring positive thinking towards the social order, so that they can show their performance on a high level as thus contributes towards the development of the society as well as nation. The main objective of the journal is to present the various types of research paper on Agricultural Sciences and Medical Sciences subjects in front of the readers so that they can have the full knowledge of different aspects of the Agricultural Science and Medical Sciences.

We believe that Indian Journal of Agriculture and Allied Sciences (IJAAS) will be in a position to maintain its standard in future too with the help of all scientists working in agriculture and allied sciences. We intend to present research paper focused on science and technology in the next issue. We always respect your kind suggestion and instruction for the elevation of the journal.

We best wishes.
